COATINGS

Details

The campus buildings are characterized by clear lines and contemporary architecture. Large glass fronts allow plenty of daylight into the rooms and create an open and friendly atmosphere. The use of natural materials such as wood and stone gives the buildings a warm and inviting appearance. A central feature of the campus is its spacious design and the integration of green courtyards and gardens. These not only provide a pleasant retreat for employees, but also help to improve the indoor climate and promote sustainability. The interior of the campus is just as impressive as the exterior architecture. Modern equipped workstations, flexible meeting rooms and innovative common areas create an inspiring environment for creative ideas and collaboration. In addition, the campus offers a variety of amenities for employees, including cafés, gyms and outdoor recreation areas. These help to promote a healthy work-life balance and enhance employee wellbeing. Overall, the Wüstenrot & Württembergische AG campus embodies the company's values and stands for innovation, sustainability and a modern working environment.
