Interior Applications

IGP powder coating systems for industrial interior applications specifically improve processes and products

YEARS OF
INNOVATION

POWDER
COATINGS

PERFECTLY COORDINATED POWDER COATING SYSTEMS FOR INTERIOR APPLICATIONS

The IGP-DURA[®]*mix*, IGP-DURA[®]*xal* and IGP-DURA[®]*guard* powder coating systems from IGP are Swiss premium products for industrial interior applications. They offer you safety and consistency with a wide variety of special effects and colours – and are now also available with a robust surface finish.

Processing

- Simple application
- High recycling stability

Surfaces

- Appealing appearance
- Large variety of gloss and colours
- Robust surfaces – abrasion-resistant or scratch-resistant
- Good elasticity and impact resistance
- Extensive effect characteristics

Areas of Application

For industrial applications with metallic substrates such as:

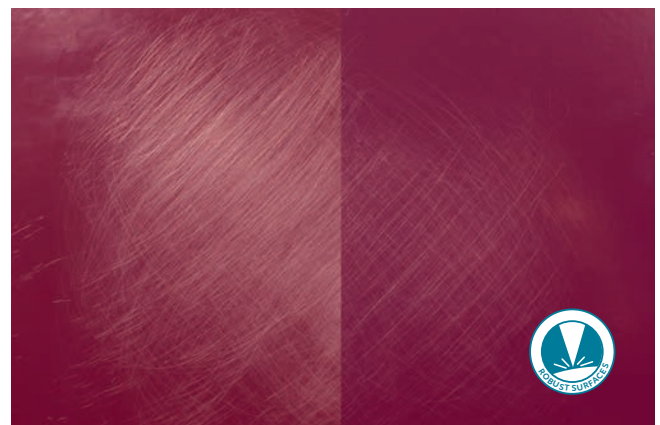

- Operational facilities
- Office furniture
- Ceiling panels
- Household appliances, refrigerators
- Radiators
- Lights
- Hot water boilers
- Medical facilities
- Laboratory technology
- Ventilation and air conditioning technology
- Machine engineering

Reliability

- Batch and delivery consistency
- Certified work and management systems

IGP Services

- Application-related consulting
- Customer training
- Individual sampling

Standard surface

Robust surface

Bigla AG, office furniture

Gallus Ferd. Ruesch AG, printing machines

THE PERFECT SYMBIOSIS OF FUNCTION AND DESIGN

Professional powder coating systems for interior applications with particular functionalities: Robust surfaces – thin coat systems – electrically conducting coatings – anti-graffiti surfaces – anti-microbial protective systems

IGP-DURA[®]guard 32

for high chemical resistance requirements

A chemically ultra-resistant mixed powder system with an excellent anti-graffiti function. Available in three surface versions.

IGP-DURA [®] guard 32 product range			
Quality	Surface	Finish	Function
3209	Smooth	Gloss	Chemically resistant/ Anti-graffiti
3207	Smooth	Silk gloss	Chemically resistant/ Anti-graffiti
321M	Fine structure	Matt	Chemically resistant/ Anti-graffiti

IGP-DURA[®]care 32

for resistant and anti-microbial surfaces

The IGP-DURA[®]care 32 series is an anti-microbial finish which is based on the chemically-resistant IGP-DURA[®]guard 32 powder coating series.

IGP-DURA [®] care 32 product range			
Quality	Surface	Finish	Function
3207... G00	Smooth	Silk gloss	Anti-microbial, chemically resistant 

IGP-DURA[®]xal 44

The IGP-DURA[®]xal 44 series is characterised by deep matt, fingerprint-free surfaces and reduced sensitivity to scratches.

Sortiment IGP-DURA [®] xal 44			
Quality	Surface	Finish	Function
4401... S00	Smooth	Deep matt	Scratch-resistant, fingerprint-free  NEW
4401... D00	Smooth	Deep matt	Abrasion-resistant, fingerprint-free NEW

IGP-DURA[®]mix 33

The IGP-DURA[®]mix 33 series is characterised by its variety of surfaces and gloss grades. It ideally meets the special aesthetic and functionality requirements. Matt designs are enthusiastically received in design-oriented applications. We offer fine structures in two gloss finishes. The matt coarse structure is purchased by numerous customers in the engineering industry.

IGP-DURA [®] mix 33 product range		
Quality	Surface	Finish
3303	Smooth	Matt
3305	Smooth	Silk matt
331M	Fine structure	Matt
331S	Fine structure	Silk gloss
332M	Coarse structure	Matt
3302	Smooth	Matt

– IGP-DURA[®]mix 3302...T00 ceiling panel solution, application-reliable thin coat technology, also available in a heating-value-optimised design (...U00).

IGP-DURA [®] mix 39 product range			
Quality	Surface	Finish	Function
3902... S10	Smooth	Matt	Scratch-resistant, low cure 
3907	Smooth	Silk gloss	Low cure

IGP-DURA[®]pol 68

We also offer a IGP-DURA[®]pol 68 polyester system for interior and exterior applications with a 150 °C option as an alternative to these offers.
